

# CONVERSACIONES SOBRE NEUROMEDICINA

LUNES

03 DE SEPTIEMBRE 2018

15:00 HRS

Auditorio Edificio BNI  
Facultad de Medicina  
Universidad de Chile

## Dirk Montag Ph.D.

Neurogenetics Laboratory at Leibniz  
Institute for Neurobiology

"Neuroplastin ablation causes retrograde  
amnesia of associative memories and identifies  
a novel function in calcium homeostasis."

## Rodrigo Herrera-Molina Ph.D.

AG Neuronal and Synaptic Signals -  
NeSyS LIN-Magdeburg, Germany

"Neuroplastin interacts with TRAF6 and PMCA  
to regulate signaling transduction, synapse  
formation, calcium clearance, and plasticity in  
neurons"
